Arshia Moghbel

PROFILE

A highly motivated 11th-grade student from Isfahan, Iran, with a strong passion for technology, programming, and multimedia. I possess solid experience in software development, especially in Swift, Python, and C++. With a natural talent for creative work, I also excel in video editing, graphic design, and UI/UX design. I am eager to apply my technical skills and creative talents in a professional environment, continuously growing and learning.
